

Nova Scotia Gaming Foundation Team Professional Development Grant Application

Grants are awarded on an ongoing basis throughout the year, so there are no specific deadlines to apply.

Team grants are intended to build the capacity of service providers to address problem gambling in Nova Scotian communities. Activities must therefore be designed to meet this goal.

Some examples of appropriate training activities include the following:

- A half- or full-day *Gambling 101* Workshop for staff or volunteers
- A workshop to increase clinicians' skills in interventions, addictions treatment, and case management for people experiencing gambling disorders
- A course on motivational interviewing techniques for eliciting motivation to change problem gambling behaviour
- Other relevant training that builds the capacity of participants to address problem gambling in their communities

Half-day workshops may be funded up to \$500.00.
Full-day workshops may be funded up to \$1000.00.
